## St Anne's College Learning and Teaching Framework

Liberated learners relating, engaging, inquiring, persevering, challenging, reflecting and learning from each other (CoSSI)

At St Anne's College the **LEARNER** is at the centre of what we do.

**Nothing without joy**

Loris Malaguzzi

We believe in the power of listening to student voice, so that the learner drives learning.

We acknowledge the importance of opportunities to build learner assets.

We aim to be self-regulators integrating knowledge, capabilities and dispositions.

We see all of our students as capable, curious, competent learners.

	The Social Nature of Learning	Recognising Individual Difference	The Learning Environment	Stretching All Learners	Assessment for Learning	Building Horizontal Connects
Principle	Learning occurs through the power of collaboration, connection and interaction.	Students come to school from different social environments with varied experiences, interests, prior knowledge, learning styles and self-efficacy.	Learning results from the dynamic interplay of emotion, motivation and cognition.	Learning is approached with a mindset of growth, persistence and resilience.	The process of seeking and interpreting evidence to inform ongoing learning.	Transference results from Learners building on prior knowledge and making meaning from past experiences.
Belief	At St Anne's College we believe that dialogue with others is key to our Catholic faith. As we learn from each other, we hope to better understand our relationship with God, self, others and the world.	At St Anne's College we believe that each person's giftedness contributes to the creation of a culture of inclusion, wellness and open mindedness.	At St Anne's College we believe that all learners can flourish when they are immersed in an environment of wonder, exploration and inquiry.	At St Anne's College we believe that learners are capable to reach beyond their current reality.	At St Anne's College we believe that assessment is purposeful learning that is integral to the learning and teaching.	At St Anne's College we believe through a commitment to faith, wisdom and learning that we are transforming agents in the world.

# St Anne's College is a Catholic community welcoming all, inspired by a loving God, committed to faith, wisdom and learning.

St Anne's College is a Catholic Educational Community open to all and to the many possibilities that learning presents.

In faith and wisdom we learn in God's abundant love.

At St Anne's College, the parent, caregiver or guardian is seen as integral in the learning cycle. Learning cannot be fully achieved if there is not a commitment to creating trusting relationships that are engaging and authentic.

At St Anne's College we will support parents on their child's learning journey. A journey that commenced long before starting at St Anne's, with a competent and capable child that has learnt to walk, talk, feed and socialise and much more. We recognize the parent as the first and foremost educator in a child's learning and we now take their hand on this journey.

St Anne's College requires all members to commit to Catholic values, and be prepared to support learning.

St Anne's College is committed to the learner, be it a child, adolescent or adult, and recognizes that everybody can learn and will learn throughout all stages of their life.

At St Anne's College we expect a strong desire from all to do their best. Each day brings a new beginning and a craving to discover the world about us. Learners will therefore bring a readiness to not only learn for themselves, but allow those about them to learn free of interruption, in a safe and happy environment.
